You're injured, you need emergency treatment, and you end up confined in the hospital for five days. "Accidents happen," the old saying goes. "You can't plan on them, but you can plan FOR them."

People call them accidents for a reason; they are unplanned and can happen to anyone at the most inopportune times.

When an accident affects your livelihood or that of a family member, having a plan for the unexpected can be invaluable. ManhattanLife Assurance's Personal Accident Indemnity Delivery product (PAID) can provide you with a vital piece of that plan. The PAID plan **helps you pay for out-of-pocket expenses** and provides benefits to you or your family for many of the accidents that can happen without warning.

Additionally, You can choose the coverage that works best for you with our 24-hour, or off-the-job only plan options. Eligible issue ages are 18-64, and the policy is guaranteed renewable until age 70.*

**Subject to our right to change premium rates.*

Accidents Happen

- More than one in four of today's 20-year-olds can expect to be out of work for at least a year because of a disabling condition before they reach the normal retirement age. ¹
- There were approximately 2.8 million nonfatal workplace injuries and illnesses reported by private industry employers in 2017. ²
- There were 882,730 occupational injuries and illnesses in 2017 that resulted in days away from work in private industry. ²
- Those who've faced household medical bill problems report struggling to make payments, both for their medical and non-medical bills. 61% say they have been late on a payment for a medical bill, and 56% say they've missed a payment. Similarly 56% report being late and 46% report missing payments for non-medical. ³
